

## Service bulletin 191

10th December 2012

### New spring and catch

To increase the quality of the HOUNÖ 's product, it has been decided to introduce a new spring and catch for the door handle.

The new spring and catch will be mounted on new ovens from the serial no.

- Visual cooking II  $\geq$  12 11 57142
- Smart Edition  $\geq$  12 11 60031

It will be possible to update older Visual Cooking II ovens with the new spring and catch, to do that the parts below can be ordered.

- |                                                  |          |
|--------------------------------------------------|----------|
| • Spring and catch – Right hand hinged           | 30420850 |
| • Spring and catch – Left hand hinged            | 30420849 |
| • Complete handle with catch – Right hand hinged | 30420854 |
| • Complete handle with catch – Left hand hinged  | 30420853 |

On Visual Cooking I ovens, the old handle, spring and catch still need to be ordered as the new catch is not able to be mounted on Visual Cooking I ovens.

Best regards

Michael Bech Jensen
