

**SERVICE BULLETIN NO. 144****Additional equipment for CombiClean wash arm  
Bottom part with additional nozzle**

Some of our customers sometimes find it difficult to clean the bottom of the oven chamber properly during normal use of CombiClean.

Consequently, we are now able to offer you a bottom part with an additional nozzle, as an optional extra. The additional nozzle directs a fan-shaped water jet towards the bottom of the oven chamber, i. e. a larger part of the bottom is cleaned by nozzle pressure, which again means that the mechanical cleaning effect is increased.

As mentioned, the bottom part is an optional extra and we will inform you of the current price on request.

**The part No. is 20520286.**

Yours sincerely,

**HOUNÖ A/S**
