

S E R V I C E B U L L E T I N N O . 1 8 9**New IO Board**

With the purpose of continuously improving the quality of our ovens and in order to optimise our IO boards, we have introduced a new IO board (part No. 30900065). This IO board can ONLY be used in electric ovens and in ovens with serial No. xx xx 5xxxx. The IO board is exchangeable with a 30900015 IO board installed in an electric oven, but it is not exchangeable with the same IO board installed in a gas oven.

Best regards,

Michael Bech Jensen

Survey of software versions, CPU's and IO boards:

Oven type	CPU	IO board	Software version	Update key	Serial no.
Visual Cooking I					
B, C, K	20900004	20900002	1.21	Memory key	xx xx 2xxxx / xx xx 3xxxx
BP, CP, KP	20900001	20900002	1.54	USB key	xx xx 2xxxx / xx xx 3xxxx
BPE, CPE, KPE	20900001	20900002	1.54	USB key	xx xx 2xxxx / xx xx 3xxxx
Visual Cooking II					
B, C, K	30900014	20900002	2.10	Memory key	xx xx 4xxxx
BPE, CPE, KPE	30900008	20900002	1.67	USB key	xx xx 4xxxx
Visual Cooking II NEW IO BOARD					
B, C, K	30900054	30900015/30900065	3.30	Memory key	xx xx 5xxxx
BPE, CPE, KPE	30900058	30900015/30900065	2.63	USB key	xx xx 5xxxx
Visual Cooking II (GAS)					
C	30900054	30900015	3.30	Memory key	xx xx 4xxxx / xx xx 5xxxx
CPE	30900058	30900015	2.63	USB key	xx xx 4xxxx / xx xx 5xxxx
CombiSlim					
C	30900069	30900015/30900065	9.03	Memory key	xx xx Axxxxx
CPE	30900068	30900015/30900065	2.63	USB key	xx xx Axxxxx

IO-board 30900065 can only be used in electric ovens with serial No. xx xx 5xxxx and in CombiSlim.

Ovens with the "old" IO board have serial No. xx xx 3xxxx / xx xx 4xxxx.

Ovens with the "new" IO-board have serial No. xx xx 5xxxx.
